Pope Francis Reflection: Christ’s resurrection is not an event of the past. It contains a vital power which has permeated this World. Where all seems to be dead, signs of the Resurrection suddenly springs up. It is an irresistible force. Often it seems that God does not exist; all around us we see persistent, injustice, evil, indifference and cruelty. But it is also true that in the midst of darkness something new always springs to life and sooner or later produces fruit.
